

ALL WOMEN

Wine of Cardui is the guardian of a woman's health and happiness from youth to old age. It helps her safely into womanhood. It sustains her during the trials of pregnancy, childbirth and motherhood, making labor easy and preventing flooding and miscarriages. It gently leads her through the dangerous period known as the change of life.

WINE OF CARDUI cures leucorrhoea, falling of the womb, and menstrual irregularity in every form. It is valuable in every trying period of a woman's life. It reinforces the nervous system, acts directly on the genital organs and is the finest tonic for women known. Ask your druggist for a \$1.00 bottle of Wine of Cardui.

Batesville, Ala., July 11, 1900. I am using Wine of Cardui and I feel like a different woman already. Several ladies here keep the medicine in their homes all the time. I have three girls and they are using it with me.
Mrs. KATE BLOWEEL
For advice and literature, address, giving symptoms, to The Ladies' Medical Department, The Chattanooga Medicine Company, Chattanooga, Tenn.

Furniture and Undertaking

I at all times am keeping a nice line of Furniture, Wall Paper, Telescopes, window shades, Linoleum and Oilcloths. A fine line of Ingrain Carpets, examples Brussels, Moquette, and I make piles of Picture Frames.

Also Coffins and Undertaker's supplies are fine and a large line to pick from. I have robes and shoes, white hose. I have taken a thorough course in Embalming and will take good care of bodies and preserve them with fluid. I furnish Pictures enlarged and many other things.

Jasper, - Missouri

PIMPLES

My wife had pimples on her face, but she has been taking CASCARETS and they have all disappeared. I had been troubled with constipation for some time, but after taking the first Cascarets I have had no trouble with this ailment. We cannot speak too highly of Cascarets.

NEWS FROM THE PHILIPPINES

Interesting Letter from a Former Jasper Boy.

Mr. B. B. Wilhoit, of this city has received the following interesting letter from his son Lester, who is a soldier in the Philippines:

BORONGAN, SAMAR, P. I., July, 28, 1900.

I will now try and answer your most welcome letters that I received yesterday. I got two from you and also three others. Yesterday was the first time that we got any mail for six weeks and I was very glad to get it. We also got paid yesterday, got four month's pay and we have one month's coming now. Last night half of the men were drunk, but none of Company C, got in the guard house but Company D, got in there five strong. I put \$50 with the pay master and have over \$30 in my pocket now.

We have had a little fighting here lately. The negroes got rather bold the other night and burned all the houses on the outside of town. While the houses were burning they attacked us from one side with rifles and from the other with canon. During the attack some bold men tried to creep up on an outpost. They got within ten feet of it before they were discovered and were fired upon. Five negroes were killed but none of us were hurt. With all of our little fighting we have only one man wounded and he fell into a trap and run a spear through his foot. He is getting along real well and will soon be alright. We lost our first man the other day, he died in Manila with the fever.

There are about four men of this Co. in Manila sick now. Co. D leaves here tomorrow. They are going to Salut. We will be left here all alone but I guess we can get along alright. Duty will be hard but that will be all. I don't think we will have drill. We got two wagons and teams here yesterday. They are the first I have seen for nine months. I am not working for St. Carroll any more. The work got too hard so I quit. I like to do duty a great deal better. We went out on a march the other day and got in a place where we could not get anything to eat. We had to eat our bacon raw and made a soup out of cold water, sugar and hard tack. I guess that I have changed since I left Jasper. You remember I could not eat bacon at all at home, but I have seen better days.

I am going to send Jen and Charley a silk handkerchief by next mail. I am going to send you one next mail if I can get a nice one. I haven't time to get it this time. The boat sails tomorrow and I'll have to hurry or I won't get all my letters answered and they won't get off until next boat. Morgan will graduate before I get back and I guess he will go into some kind of business. What is he going to make of himself? I hope you will get a good claim. I believe I would like to go to that country. I get a little homesick now and then but I have so much work to do it don't last long. I am in charge of our house today. We have to keep some one in the house all of the time or some negro will steal our guns. I will be on guard tomorrow and next day, so I am busy for a few days. I can't see that the war has ended much since we have been over here, if anything it has gotten worse. There are about 10,000 American soldiers on this island but they don't seem to do much good. We heard good news to day but I don't know how true it is. The report is that 150 rifles and men surrendered on the other side of the island. If that is true the war will not last much longer.

I have been in the army fourteen months and am very well satisfied, but would rather be in the States. We have been here almost a year and I don't know how much longer we will have to stay. We hear all kinds of tales over here. Jen said was going to have strawberries for supper. I don't know what I would give for a large dish of them. I have just finished a large pie-apple. I got two large ones for 5 cents. I can't speak Filipino but can speak some Spanish. Be sure and get me a pretty Indian girl and I will take her and a chain too. Tell all the folks hello for me and give them my love. Tell Morgan to write. I am going to write to

Jim now. Well papa I will have to close for this time. Please write soon.

Your son,
Private LESTER H. WILHOIT,
Co. C, 1st Inf. Manila, P. I.

MRS. WOOD IN A RUNAWAY.

Thrown Out of a Wagon and Knocked Senseless.

The following from the Carthage Press gives the account of an exciting runaway at Carthage last Thursday in which Miss Wood, who lives in the Dewey neighborhood was knocked senseless:

Ref. Mr. Wood an advent preacher living north of here between Jasper and Carthage, was in town with a load of apples this morning peddling them out to such residents as would purchase, and ended up with a big runaway.

His sixteen year old daughter was with him and held the horses, while he was inside a house at the north end of Thacker's park on Forest street delivering apples.

While waiting the lines got under one of the horses tails, and caused them to start. Miss Woods dropped her parcel at this juncture, badly scaring the horses and causing them to run in earnest. The girl did not have strength to hold the horses after they once got started and soon lost one of the lines.

The team ran the full length of Thacker's park on Forest street and collided with a tree a few yards south of Centennial. The wagon was here turned over on its side spilling the apples in every direction and throwing Miss Wood out on her head knocking her senseless and badly spraining her right wrist.

Dr. Chester was called and found her not seriously injured. The team was near where they struck the tree and were unhurt. The wagon was little injured.

THAT NEW DELIVERY ROUTE.

Postmaster Wade Replies to Mr. Bell's Communication.

EDITOR NEWS:
Will you allow me through the News to give Hon. T. B. Bell and his man Friday a bit of information which they both seem to be very much in need of, judging from their letter published in last week's paper.

We admit that papers published in Kansas City on the 2nd day of September will arrive at Golden City on the 3rd day of September at 4 a. m., while the same papers can reach Jasper at 12:38 a. m., over three hours in advance of Golden City. Papers published in Kansas City dated September 4, arrive at Jasper at 7:45 a. m. on September 4 and at Golden City about 4 p. m. Some over 8 hours for Jasper on point No. 2.

All mail leaving St. Louis in the evening arrive at Jasper at 7:45 next morning and at Golden City at 11 a. m. Some Jasper over 3 hours on point No. 3.

Now if Mr. Bell's man Friday has any more to say let him put up. If Hon. T. B. Bell will come to the Jasper bank and compose and write as good a letter as he wrote to M. E. Benton, M. C., he will be rewarded with a cash prize of \$5. If he desires to compete for this prize, he can learn full particulars by calling at the postoffice at Jasper, Mo.

Respectfully,
G. H. WADE.

Big Wheat Crop.

Judge Scholer was in from his farm yesterday. He had just finished threshing his crop of wheat. On his farm this year was raised 3000 bushels. It made an average of twenty bushels per acre and is worth at present 65 cents per bushel. Mr. Scholer says it is as clean, nice wheat as he ever raised. He will have about 300 acres sown this fall.

Prof. A. P. Selsor, who has been connected with the Gainsville Normal school for several years past, is now a resident of Anadarko, Oklahoma, having a position as clerk in a store there.

J. H. Selsor, of Boston, was a pleasant caller Tuesday. He thinks this fall will be a good time to feed cattle, and has accordingly bought quite a number for that purpose.

A WORD ABOUT SEPARATORS.

To the Interest of the American Farmer.

I find in reading some of our agricultural papers, articles written in the interest of the Centrifugal or other high priced Cream Separators, reporting that they come from some highly influential farmer, saying that the Dilution Separators are a humbug, a fake, etc. This is certainly false from beginning to end.

This Dilution Process Separation has been before the public three years. There are over fifty thousand of this kind of Separators in daily use in the U. S. My company has placed its Separators among the best butter makers in the land and thus far have failed to find one instance in which they have failed to give satisfaction. The cream and butter are as perfect and sweet as that obtained from the high priced Centrifugal or other Creameries that depend on ice, for their method of gathering the cream. This system of diluting milk with water for the purpose of gathering cream, has been given a careful study for years, by scientific men. They say that for a Separator that requires but little money to purchase that Hunt's Improved Ventilated Separator has no equal, and that there is no better system for the farmer's use. It is far ahead of the old style of setting milk in pans, crocks, etc.

There are thousands of testimonials from people using Hunt's Separator. They have tested the same with Babcock milk tester, and with different Centrifugal Separators, also Creameries that use ice, and find this method as practical and perfect. It will gather its cream as closely, and is as pure, sweet and solid as any, and all other apparatuses now on the market, and that the Dilution Process Separator, will produce as much or more hard and sweet butter from a given quantity of milk as those that cost from \$75 to \$150.

Now if this system is a humbug and practically no good, why do the makers of high price Separators and others in their employ try to keep people from using it? And 50,000 farmer who are using this kind of a separator send in their testimonials, saying it is the best labor saving device that has been placed on the market. I want the farmers to get their eyes open, and reflect for a moment, then read what others have to say who are using the process. You will find this system correct and our diluted milk is as good to raise hogs, calves and other stock as the milk you get from the Centrifugal Separator. These are facts worth your study, and if you wish to keep up with your neighbor try one of Hunt's Improved Ventilated Separators. Respectfully,
J. W. STARRBET

Largest Circulation in the United States.

THE CHICAGO RECORD HERALD enjoys the enviable distinction of having the largest two-cent newspaper circulation in the United States. The circulation of The CHICAGO RECORD HERALD exceeded that of any other two-cent newspaper in the country, and the addition of that of The CHICAGO TRIBUNE HERALD is easily seen that The CHICAGO RECORD HERALD is very far in advance of any other two-cent paper in point of circulation, not to mention the extensive combination news facilities which have made this great metropolitan daily premier among the newspapers of America. The facts concerning newspaper circulation can be looked up in any reliable newspaper directory.

Last week I went about.
Full of trouble and of doubt.
Now I'm smiling and dance with delight.
I had some Rocky Mountain Tealast night.
